- Clean and Minimal UI
- Integration with Firebase, Firestore and Storage

WORK EXPERIENCE

JIT INSPIRE (Dec 2020 - Jun 2021)

A service based startup, I had Joined as a React-Native Developer and Completed multiple projects in

Android :

- Text Encryption using different methods (Like AES, BLOWFISH etc).
- Auditing Android data Apps installed, OS details and some other technical details to a pdf and to UI.
- Created a complete basic App template in Flutter to be used as a head start while developing Flutter Apps.

Web development:

- Created a ecommerce website for a seeds vendor in hbs and serverless.
- Created Multiple Portfolio Website for fellow teammates and hosted it on github pages.
- Created a website which fetches data from Scholarly API and displayed graph page using D3.JS connecting authors and Co-Authors.

HOBBIES AND INTERESTS

I have a variety of Hobbies which sometimes enhance some skills in my technical aspects :

- Drawing
- Writing Stories
- Reading : I read Fiction, Psychology, Biographies and Self Help

I keep my interest to very specific fields to avoid overwhelmed by them:

- Psychology: I study about human mind and behavior which let me understand people better and respond to situations most effectively.
- Productivity: I tend to organise and keep my spaces and schedule new tasks because I value my time and don't let any new task interfere my current task.
